

Grosse Pointe North Charter Class
20 Year Reunion

**Grosse Pointe Yacht Club
June 16, 1990**

Welcome to the 20th Reunion of The Charter Class of Grosse Pointe North High School!

Twenty years ago tonight, we gathered at Grosse Pointe North's gymnasium for our High School Graduation. At that time, a First Class letter cost 6 cents, a loaf of bread was 23 cents, a gallon of leaded premium gas cost 39 cents, and a new Chevrolet Impala cost \$2,820. Since that night, a lot has changed!

We have worked more than nine months to prepare for this event. Out of a class of 623, we were able to locate 510 classmates and biographical forms were returned by 343 people. Entries were not edited unless the information was illegible or inappropriate. Although we have done our best to make this memory book an epic you will enjoy, we apologize in advance if we overlooked information or were unable to correct errors

As you read through the Best Memories Section, we hope you will remember many forgotten good times from the past. Tonight you will have a chance to rekindle old friendships and perhaps discover some new friends, just as we committee members have done. Hopefully, you will also reestablish contact with classmates who were unable to attend tonight's festivities.

Our intention was to plan a wonderful evening for everyone. We would like to acknowledge with great appreciation the tremendous effort given by Martha Schmelz McGee, Beverly Messer Kerwin, and John Duncan. The memory book and many other arrangements would never have been successful without their valuable contributions.

Have a wonderful evening and with a little luck we'll see you again at our next reunion.

When chains for doors of school were discovered ruining senior skip day - **Gary Fusciardi**

Going to North was very hard for me because my "core friends" all went to South. I always looked forward to taking off after school to hang out with them.

The best thing that happened was graduating because I left the area to attend school in Chicago. That's quite a campus! I learned more about myself through these experiences with different kinds of people, places and relationships--a part of me that always seemed stagnated in High School.

However, since I missed the 10 year class reunion, I always wondered what happened to Mickey Kamlay, who remained a wonderful memory for me. After 20 years, I would like him to know I finally "LOVE" camping.

I also confess to a secret crush on Rick Smith, who I think somehow never knew! The person I most admired was PAT LANE who seemed to me just the "nicest" person I could imagine! - **Carole Gillan Goodfriend**

Tony Viviano getting caught by a teacher (which?) with all the mimeo'd copies of our student walkout announcement - **Mark Hagstrom**

Definitely not the Senior Prom! The senior trip to Freeport was great. The one and only time I ever skipped school with Cookie Wandersee. I let her talk me into it, but it was thrilling (the school didn't catch us but my parents did!) - **Susan Harkaway Hoffman**

Mr. Wargelin's Art Class--had so much fun I decided in a career in art! - **Lois Hoogstra Taylor**

Playing trumpet in the band, and starting at a brand new school - **Michael Howle**

Undefeated golf teams - **Rick Hudson**

Macintosh offers
you endless capabilities.

With an
Apple LaserWriter printer,
you can take advantage
of them all.

What's the advantage of an Apple® LaserWriter® printer? From screen to printer, what you see is what you get.

That's because Apple's family of LaserWriter II printers are designed to support the Macintosh® computer's endless capabilities—whether you're creating page layouts with complex graphics or manipulating a wide range of fonts in various sizes and styles.

And because the LaserWriter printer is the industry standard PostScript printer by which all others are compared, you can count on superior high-resolution print quality.

You can count on outstanding flexibility, too. LaserWriter printers, linked through the AppleTalk® network system, can support large workgroups of Macintosh or MS-DOS computers. And with an inexpensive upgrade path, and other expansion options, you'll have room for enhanced performance and additional fonts.

Take a look at Apple's family of LaserWriter II printers. On every page—no matter how many pages you print—you'll see the advantage for yourself.

PPI has grown over the past 16 years because we are concerned about the quality of our work...the quality of life...and the quality of our environment. Consistently leading the industry in adherence to standards for clean air and proper waste disposal...constantly updating our facilities...and daily checking and calibration of all equipment...enable PPI to meet the requirements of this specialized industry.

Production Plating Inc. offers much more to the Aerospace/Aircraft Industry than our name reflects. Please feel free to contact us about your specialized needs. We stand ready to work with you on your most difficult plating challenges.
